

ELEVATION 2.0 LLC

Government & Corporate Procurement — Capability Statement

Sustainable Infrastructure Management & Compliance Consulting

Primary Contact: Ana Vasquez, M.Ed. | ana@elevation2inc.com

Company Overview

Elevation 2.0 LLC is a certified woman- and minority-owned infrastructure consultancy specializing in the strategic alignment, funding compliance, and site integration of decentralized clean-water systems. We de-risk capital deployment by managing post-award grant compliance, multi-agency stakeholder coordination, and environmental feasibility — delivering immediate climate resilience and clean-water access to the communities and educational institutions that need it most.

Core Capabilities

- Post-Award Grant Compliance — federal, state, and corporate funding oversight, milestone tracking, and audit-ready reporting frameworks.
- Inter-Agency Stakeholder Alignment — single point of contact between funders, school districts, utility engineers, and municipal leadership; secures localized MOUs.
- Environmental Feasibility & Sourcing — climate metrics analysis to determine optimal placement for decentralized atmospheric water-generation grids.
- Vetted Technology Integration — coordination of military-grade, patented atmospheric water generation systems through certified global manufacturers (e.g., Watergen).

Principal Credentials

- Ana Vasquez, M.Ed. — Founder & Principal Consultant
- 26 Years Professional Experience
- Certified M/WBE & WOSB
